Have you been struggling to protect your kids from the dangers and distractions that cell phone use has introduced to their young lives? If you answered **YES**, you're not alone! If you answered **NO**, then you're not aware of what could be the greatest threat to your children's health and happiness today.

The US Surgeon General recently issued a critical warning about the harms of Social Media on the wellbeing of our teenagers. Our school communities are reeling from the shocking impact of dangerous On-Line challenges. A recent FBI alert cited the alarming prevalence of online predators and cyber criminals targeting the most vulnerable amongst us. This is your opportunity to get ahead of these pressing issues, and become the protector that your family needs.

It's time to take back control over the digital dangers in your kid's life.
